

Empire of Adammia

Office of the Emperor

Decree III

National Symbols

This Imperial Decree hereby declares the official symbols of the state and its organs. A state symbol can be changed at any time by the Emperor, with the exception of the flag and main anthem, which can only be changed by public referendum and Imperial consent.

The National Flag is a green circle upon a dark cyan background. This can be hand drawn on paper, printed on paper or sewn onto fabric, and symbolises the nation itself. It should be, but is not compulsory, flown or hung in Adammic territory to secure the claim to land.

The Coat of Arms is printed at the top of this document. It should be printed on all state documents.

The National Anthem, the anthem of the nation state, is the music track "Sim Broadway" from the SimCity 3000 official soundtrack. This music, along with the flag, represents the nation, and as such should be played at major events or ceremonies where

the Empire is involved. The Second Anthem, the anthem of the Emperor, his office and personal affairs, is Toccata and Fugue in D Minor by J.S. Bach, performed by Kurt Ison in Sydney Town Hall, 2002. A third anthem is permitted but is currently undefined, and will be rarely used.

The National Sport of Adammia is fencing, and its National Animal is the Meerkat. The motto is “Quaerentibus sapientiam et honorem”. The patron saint is Jebediah Kerman.

Signed,
HIM Emperor Adam I
Imperator Adammiae I
4th May 2013, XXI day of his reign
